

Matt Guthrie
Gas Supervisor
Gas Operations – Capital Construction

August 20, 2025

Dear Central Hudson Customer,

In an effort to improve the safety, reliability, and performance of the natural gas distribution system, Central Hudson is undertaking a comprehensive natural gas main and service reinforcement program in select communities throughout the Mid-Hudson Valley to address and modernize aging infrastructure.

As part of this improvement initiative, Central Hudson will be investing in the natural gas system in your neighborhood by reinforcing the main lines in the street. Central Hudson is working with our construction partner, J. Mullen & Sons, Inc., to install these new natural gas distribution mains.

Reinforcement of approximately 2,300 feet of gas lines in the City of Poughkeepsie is formally set to begin in September, and the project is estimated to take 6 weeks to complete. Construction trenching will occur along:

- Columbia St
- Lincoln Ave, between Columbia St and Livingston St

Any disruptions to your property will be restored by our crews or our professional landscape and paving contractors. If you do not own the home or property, please refer all decisions concerning this work to the property owner. All Central Hudson employees and contractors display identification badges.

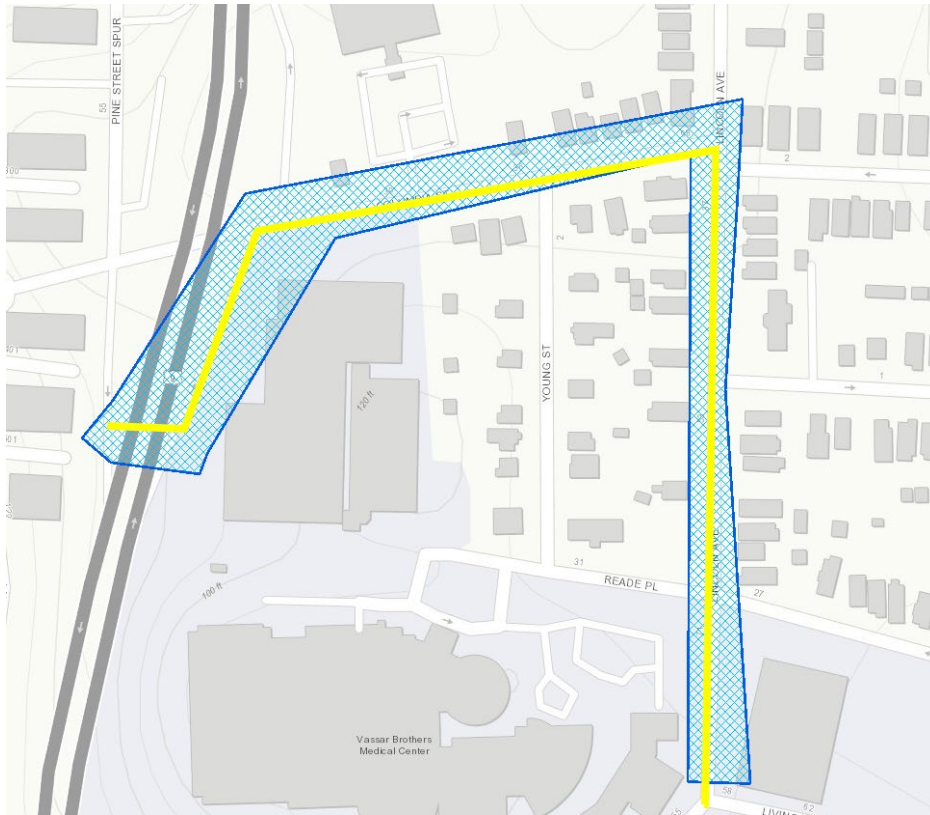

Central Hudson is working closely with your municipal officials in planning this work, such as coordination with paving, restoration, and other planned infrastructure projects. If you have any questions about this activity, please do not hesitate to contact me at (845) 334-7008.

Sincerely,

Matt Guthrie
