

WHERE HOMES WASTE ENERGY

Here are some of the major sources of warm/cool air loss and inefficiency that an energy assessment will help you identify.

NON DO-IT-YOURSELF PROGRAMS THROUGH NEW YORK STATE

NYSERDA's Residential Energy Assessment Program offers a free or low-cost review of a home's energy performance. A trained contractor will pinpoint energy waste and recommend upgrades: nyserdera.ny.gov/energyassessment.

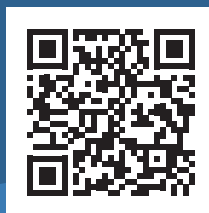

EmPower+ offers free energy efficiency upgrades for income-eligible households, helping lower energy costs and improve comfort. During a home energy assessment, certified contractors identify necessary improvements and confirm eligibility for the program: nyserdera.ny.gov/empower.

Limited-Time Offer

Save on Energy Costs with HomeBoost

Discover how you can reduce your energy bills and make your home more energy efficient

KIT INCLUDES
Free Home Energy Report
(A \$99 value)

ENERGY SAVINGS MADE EASY

Central Hudson, HomeBoost, and the Mid-Hudson Library System have teamed up to help you take charge of your energy efficiency. Through this partnership, the HomeBoost do-it-yourself home assessment kit is now available to borrow from select libraries.

The HomeBoost kit includes everything you need to assess your home's efficiency, with guided step-by-step instructions on the easy-to-use HomeBoost app. After completing the assessment, you will receive a FREE customized energy report by email—a \$99 value—courtesy of Central Hudson.

Did you know? 9 out of 10 homes are under-insulated

GET A HEAD START ON IMPROVEMENTS

When you return the HomeBoost kit to the library, you'll get another added bonus: a free box of essential products to kickstart your home efficiency upgrades. Inside you'll find two cans of spray foam, two door sweeps, one tube of caulk, and a 10-pack of outlet and switch gaskets—a \$102 value—courtesy of Central Hudson.

WHAT YOU NEED TO BORROW THE HOMEBOOST

LIBRARY CARD

From the Mid-Hudson Library System.

CENTRAL HUDSON ACCOUNT

You must be an active Central Hudson customer when you sign up.

SMARTPHONE

Android or iPhone will work.

HOME INFO

Details like year built, square footage, heating system, and window type improves report accuracy, though not required.

Borrow. Scan. Save.

Once you select the correct HomeBoost version (Android or iPhone) and borrow it from your local library, you're ready to get started!

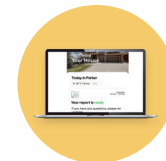

SET UP

Download the HomeBoost app and create an account, then open the HomeBoost kit to scan the QR code. Follow setup prompts.

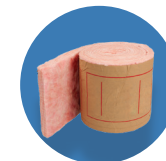

SCAN YOUR HOME

The app will guide you through the process, asking you to scan your home with the thermal camera and to provide information about the age of your home, lighting, and type of heating system and appliances.

GET YOUR FREE REPORT

Within days, you'll receive a free digital report, valued at \$99. This report provides insights, recommendations and information on available Central Hudson incentives and rebates.

MAKE IMPROVEMENTS

Choose what recommendations you want to implement, including weatherization, heating system, or appliance improvements.
