Production

Development Tier

- Code Development
- Unit Testing
- Bug Fixes

Test Tier

- System Integration Test
- User Acceptance Test

Production Tier

- Cutover
- Go-Live

What's not changing

- Technical connectivity (for EDI)
- EDI Transactions
- ESCO Portal Reports

What's Changing

- Customer Account Number
 - Going forward, this will be a combination of contract account number & POD ID.
 - 21 characters long
- ESCO Account Number
 - New account number in SAP
 - 11 characters long
- Service Provider ID
 - Unique identifier (included in the Gas Meter Reading & Electric Balance Settlement reports)

What's Changing

- Naming convention: E_ or G_ prefix, based on whether it is Gas or Electric, followed by abbreviated ESCO name.
 - Example: Constellation Energy is E_CONST
- Unmetered accounts will now also be included.
- Rate Codes
- Log-in to ESCO Portal
