

# Residential—High Efficiency Heat and Hot Water Equipment

Save energy with this high efficiency residential program. Incentives are provided to reduce the cost difference between standard efficiency and high efficiency equipment.

## Residential Electric and/or Natural Gas Equipment Rebate

Central Hudson Gas & Electric provides rebates to residential customers for installing high efficiency HVAC equipment that meets program requirements. Except for heat pump water heaters, all equipment must be installed by a participating Central Hudson Trade Ally, all of whom are listed on [CentralHudson.com/TradeAllies](http://CentralHudson.com/TradeAllies). To receive your rebate, please fill out this form completely and mail it to the address below with:

- ☐ **A copy of your dated sales receipt from a Central Hudson Trade Ally**
- ☐ **An AHRI Certification or Manufacturer's specification sheet, including model numbers and performance ratings (provided by your Trade Ally)**

Please expect 5–7 weeks for rebate amount delivery after your submission.

### Mail to:

**Central Hudson Rebate Center • 980 Beaver Creek Drive • Martinsville, VA 24112**

(Please do not send this form with your utility bill payment.)

### General Terms and Conditions for Residential Customers

- Equipment and services must be purchased Jan. 1, 2025, through Dec. 31, 2025.
- Work must be completed by a participating Central Hudson Trade Ally.
- Incentives are available for residential gas and electric customers of Central Hudson.
- It is the responsibility of the customer to ensure that all requirements for the rebate are met and that all required documentation is provided.
- Rebate payments will be based on the equipment purchase date.
- Failure to provide any of the required information will prevent processing of the application.
- Central Hudson reserves the right to review the installations in order to ensure compliance with all program requirements. Central Hudson may choose to review locations to verify completion of the projects and to measure and verify energy savings. Such reviews will be made at a time convenient to the applicant, with advanced notice given to the applicant. Misrepresentation of installation location or measure eligibility may result in forfeiture of the incentive award.
- Program procedures, requirements and rebate levels are subject to change or cancellation without notice.
- One rebate check will be issued to the customer for each approved and completed application. Where applicable, a separate check will be issued to the contractor for each approved and completed application.
- Installations must be completed in accordance with all laws, codes and other requirements applicable under federal, state and local authority.
- The customer is urged to seek appropriate consultation concerning any tax liabilities that could be associated with the receipt of the rebate.
- The customer verifies that they have not received any other incentives from any other state programs for the same equipment for which a rebate is being requested in this form.
- Central Hudson is entitled to 100% of the energy benefits associated with the rebated measures, excluding the value of energy cost savings realized by the customer.
- Central Hudson assumes no responsibility for the performance of the equipment and equipment warranty, the quality of the work, labor and/or materials supplied, and/or the acts or omissions of the Trade Ally.
- The equipment must be purchased new and installed at the above listed customer location.
- The customer hereby relieves and indemnifies Central Hudson of any and all liability associated with this project.
- The customer understands that he or she may be contacted by Central Hudson via survey or questionnaire to provide feedback on his or her satisfaction with the program.
- Information sharing with the New York State Department of Public Service and NYSEERDA: Customer of Central Hudson agrees and authorizes the utility's sharing of the participant-customer's information and/or project-level information with New York State Department of Public Service Staff and NYSEERDA, including its agents or authorized representatives, consistent with NYSEERDA's New York State Public Service Commission and statutorily authorized responsibilities, including, but not limited to, supporting market development initiatives, and other evaluation and measurement activities. (For clarity, the term "project level" includes the information based on the scope of the project, including, but not limited to, aggregated and anonymized whole building, building or subsets of the project.)

By signing this application, the customer agrees to the terms and conditions of this document. The customer hereby consents to the utilization and release of his or her energy consumption data and usage by Central Hudson and/or its designees, including program administrators and evaluation contractors. These administrators and contractors are obligated to Central Hudson to keep customer information confidential. The release and usage of data will be only for program evaluation, program eligibility determination, energy savings purposes and analysis and will be kept confidential.

Customer Signature \_\_\_\_\_ Date \_\_\_\_\_

\*Self-installs allowed for heat pump water heaters and smart thermostats only.

Central Hudson Gas & Electric has evaluated and qualified energy saving measures listed on the next page. For an energy efficiency measure to be eligible, it must meet the minimum program requirements. If you have questions or need assistance, please call 800-515-5353 or visit [CentralHudson.com/Incentives](http://CentralHudson.com/Incentives). Please ensure that the product meets the standards in the table below. Trade Ally should complete the other side of this application.

## NATURAL GAS HEATING EQUIPMENT

<sup>†</sup>Electronically Commutated Motor (ECM) is a brushless DC motor with all of its speed and torque controls built in. This allows the motor to adjust its speed to ensure the optimal airflow at all times. In addition, ECMs are considerably quieter and less expensive to operate than conventional furnace fans.

<sup>‡</sup>Maximum two smart thermostats per application per calendar year.
