HERE'S WHAT
NATURAL GAS
CAN DO FOR **YOU**,
YOUR **BILLS**,
YOUR **LIFESTYLE**,
& THE **VALUE** OF
YOUR HOME.

LIVE SIMPLY BETTER

Join the **47%** of American households that heat with natural gas with lower monthly heating bills and exceptional convenience.

TESTIMONIALS

"I looked at this purely as an investment, and when I calculated the savings, I knew it was good."

— **Herbert Dym,**
Poughkeepsie Resident

"Most of my clients moving to the Hudson Valley request houses that have natural gas for heating and cooking. Buyers are looking for the long-term cost savings and convenience that natural gas provides, giving sellers a competitive advantage."

— **Daniel Axtmann,**
Local Real Estate Agent

Reliable

Natural gas is available **on demand** with no need to wait for oil or propane deliveries. Never worry about running out of fuel and pay for only what you use.

Cost-effective

Households with natural gas have the **lowest** expenditures for heating fuels during the winter and have been lower than the costs for propane, fuel oil or electricity since 2010, according to the American Gas Association.

Eco-friendly

Natural gas is the cleanest burning fuel producing about **30 percent** less carbon dioxide than oil. Greater direct use of natural gas for heating and cooling, water heating, cooking and clothes drying can cut carbon emissions nearly in half.

Domestically Produced

More than **90 percent** of the natural gas consumed in the United States is produced domestically, contributing to jobs in the energy industry and a strong national economy. The abundance of natural gas results in stable pricing.

BE **WARM** & COZY

Clean, safe, reliable — natural gas is the natural choice for homeowners looking for an **affordable** way to heat their homes. The average rates for natural gas paid by consumers are at their lowest levels in decades, according to the American Gas Association.

High-efficiency gas furnaces heat your home faster and provide heat that's as much as **25 degrees warmer** than electric heat.

Natural gas appliances are up to **98 percent efficient**, which can significantly decrease your overall energy consumption and lower your monthly heating bill.

Natural gas dryers operate at a lower cost thanks to using **30% less energy** than electric ones.

According to the National Association of Home Builders, homes with natural gas have a **4% higher resale value** than those that heat with oil or propane.

PAY LESS & GET MORE

Natural gas gives you more of what you need and less of what you don't. Unlike oil, natural gas is delivered to your home as you need it, with no storage requirement. Natural gas appliances are highly efficient, producing minimal waste so you can wash dishes, do laundry and make dinner while saving energy and cutting down on carbon emissions.

Tankless natural gas water heaters can heat

2x

as much water as their electric counterparts in the same amount of time

With an efficient gas water heater you can shave as much as

20%

from your water heating bill

FIND **REST** & RELAXATION

Make the great outdoors even greater by equipping your backyard with natural gas. The **savings** from the pool, fire pits, and patio heaters will allow you to add all the bells & whistles you like.

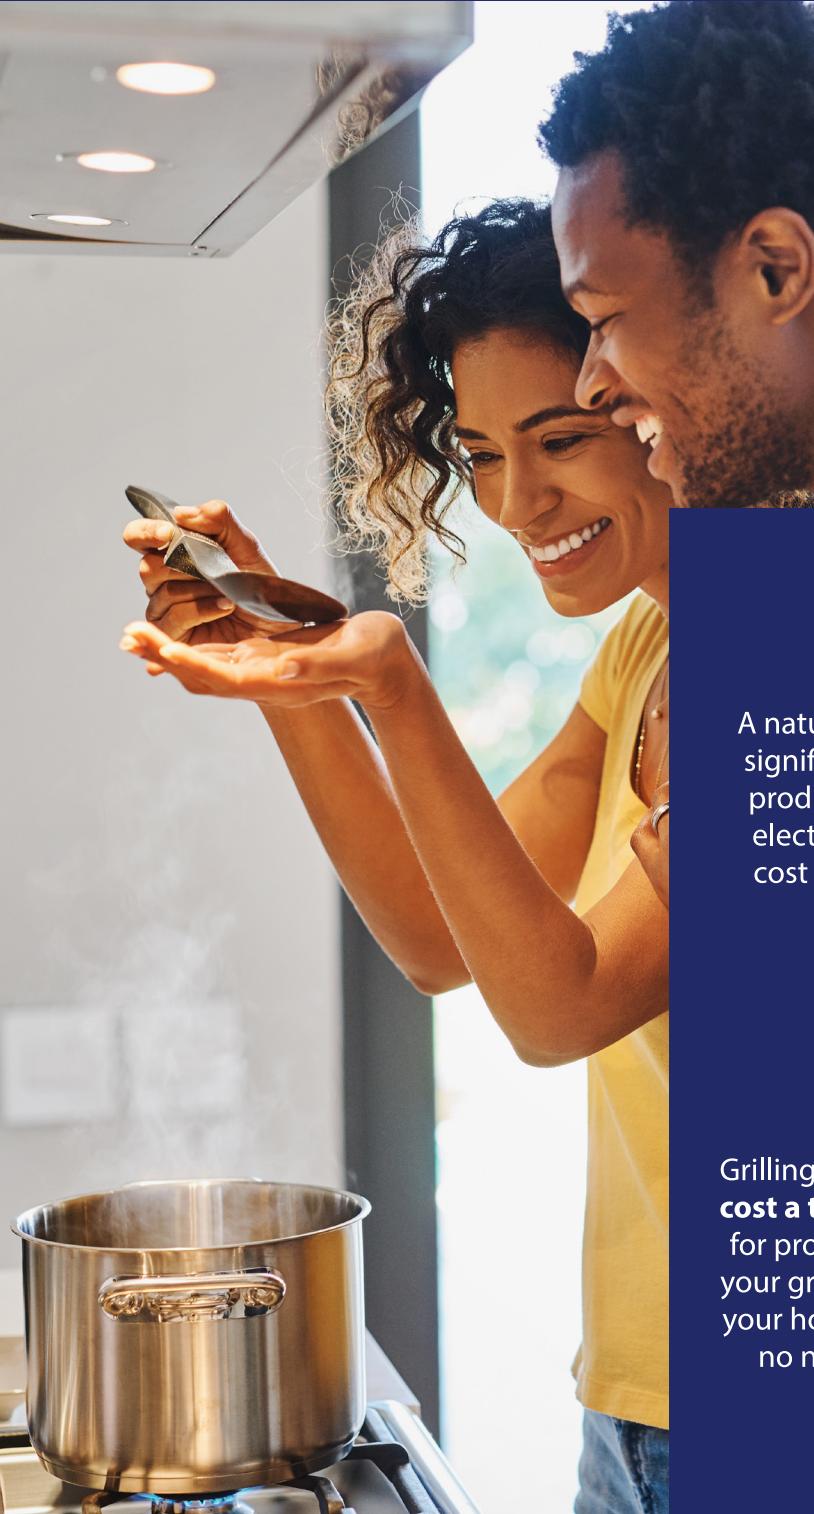

Heating a pool with natural gas versus propane is typically a few dollars **cheaper** to run per hour. Compared to electric heaters, natural gas pool heaters heat water **quicker** and are suitable for any temperature.

The average operating cost for natural gas outdoor patio heaters is around **\$0.50/hour**, whereas liquid propane could cost three times more.

BECOME A **COOK** & CONNOISSEUR

Meals heat up **quicker** and are cooked to **perfection** with complete temperature control when cooking with natural gas on your stove, oven or outdoor grill.

A natural gas stovetop uses significantly less energy to produce the same heat as electric ranges and could cost you **half as much** to operate.

Grilling with natural gas could **cost a third** of what you'd pay for propane. Plus, the gas for your grill comes **directly** from your home's supply, so there's no need to haul another propane tank.

LET'S GET **STARTED!**

Central Hudson makes it easy. Our representatives will walk you through the steps, explain the process and help you with rebates and incentives. In most cases, a service line up to 100 feet is provided for **FREE**. Ask for details.
