

Central Hudson Gas & Electric Corporation

Commercial Account Application / Industrial Account Application

Central Hudson requests you complete Sections I-V accurately so that we may place your account on the proper service classification. Since different eligibility requirements and rates for the various service classifications exist, the information you provide below will assist the Company in classifying your account in the appropriate service classification and rate which is most beneficial to you. Your load characteristics and nature of business determine your eligibility for various rates within a service classification. Should there be a change in usage or equipment at a future date, you must notify Central Hudson in order to assure that you are properly billed. If this application is for a Religious Organization, Community Residence or Veterans' Organization and Central Hudson denies you residential rates, you may submit a request in writing that Central Hudson inspect the premise and review the rate based on the results of this field inspection. You may also appeal the rate classification to the Public Service Commission. If the information provided by you is inaccurate or incomplete, you may be subject to back billing on the correct service classification or may not receive a refund for overcharges based on the improper service classification. Representatives are available to assist you with any questions or concerns you may have regarding service classification. [Click here to see your Business Customer Rights.](#) A copy of our tariff, which describes each service classification in detail, is available on our website at CentralHudson.com.
