Gas Foreman
Gas Operations – Capital Construction

February 13, 2019

Dear Central Hudson Customer,

In an effort to improve the safety, reliability, and performance of our natural gas distribution system, Central Hudson has undertaken a comprehensive natural gas main and service replacement program in select communities throughout the Hudson Valley.

As part of this improvement initiative, Central Hudson will be investing in the natural gas system in your neighborhood by replacing the main lines in the street and service lines that connect to individual homes and businesses. Central Hudson is working with our construction partner, Precision Pipeline Solutions, to install these new natural gas distribution mains and services.

Replacement of approximately 10,000 feet of gas lines in the City of Newburgh is formally set to begin near the end of this month, and the project is estimated to take 18 weeks to complete. Construction trenching will occur along:

- First St, between Robinson Ave and Liberty St
- First St, between Liberty St and Montgomery St
- Carter St, between Robinson Ave and Carpenter Ave
- Third St, between Robinson Ave and Carpenter Ave
- Third St, between Lander St and Grand St
- Carpenter Ave, between Broadway and Third St
- City Terr, between Third St and Carter St
- City Terr, between First St and Broadway
- Van Ness St, between Carpenter Ave and City Terr
- Dubois St, between First St and Third St
- Chambers St, between First St and Third St
- Liberty St, between Broadway and Farrington St
- Montgomery St, between First St and Second St

If your service line is affected, natural gas meters currently located indoors will be relocated by Central Hudson or one of our contractors to an outdoor location to improve future access to this equipment by utility personnel. For your safety and security, all Central Hudson personnel and contractors wear and display identification badges.

Please note that this entire process may require work to be performed both inside and outside of your home or business. Any disruptions to your property will be restored by our crews or our professional landscape and paving contractors. If you do not own the home or property, please refer all decisions concerning this work to the property owner.

Central Hudson is working closely with your municipal officials in planning this work, such as coordination with paving, restoration, and other planned infrastructure projects. In addition, we invite you to attend an open house informational session hosted by Central Hudson at the City of Newburgh Activity Center, located at 401 Washington Ave, on Wednesday, February 27th, from 6 p.m. to 8 p.m. There, we will be glad to provide additional information about the project and address questions you or your neighbors may have.

We appreciate your patience as we invest in new facilities to better serve your needs. If you have any questions about this activity, please do not hesitate to contact me at (845) 476-6809.

Sincerely,

Brian Sweeney
